# SPREAD (IT) OUT!

**Participation, Integration, Inclusion, Diversity,**

**Solidarity, Emancipation, Democracy, ...**

**Too hard, too uncomfortable, too big? Not with us!**

How would you explain complex terms in simple phrases – creatively, colorfully, critically and humorously? How do these terms affect you and your life and which answers will you find locally in Gröpelingen?

Confront experts from politics and society with your ideas and questions in the form of small challenges and create **Explainer Videos in the Style of YouTube**.

The final presentation of the videos gives you the chance to exchange views with your interview partners and to learn more about the possibilities of how and where you can get actively involved.

You will learn how to plan, shoot and cut films. While doing so, team work and having a good time with nice people is the number one priority!
